

## GENTEK GUEST NETWORK USER INSTRUCTIONS

### How to connect to the Wireless Network

1. Select the wireless network “**Gentek\_Misafir**” from your devices and enter the password **Welcome2019!** and click on connect.

2. After selecting the “**EN**” language on the screen that opens, continuing with the “**Login**” button, by entering the personalized username and password given to you, you can access the internet by clicking the “**Sign In**” button.

3. After successful login, you will be automatically redirected to [www.gentek.com.tr](http://www.gentek.com.tr) web address. Otherwise, the system will ask for the login information to be re-entered.
